PROFESSIONAL EXPERIENCE

Ink Identifier

Organix-IT | 2024

Using Machine Learning: SVM, RNN algorithms

- Train a model by using deep learning algorithm to identify the writer of the document and also give similarity between two writing .

Game Development

IT- DEP || 2023

Using C sharp

- Infinite Runner in which player run and collect coins while handing obstacles

Library Management System

IT- DEP || 2024

- Developed using object-oriented programming in java principles to improve book management efficiency

Machine learning project

IT- DEP || 2024

- Implemented Random Forest, SVM, and Decision Tree algorithms to classify car acceptability

Teaching Experience

Coordinator

HCCS Educational System | 2025

- Managed academic and administrative activities across multiple departments.
- Coordinated events, managed faculty schedules, and ensured compliance with curriculum standards.
- Acted as a liaison between students, teachers, and management for smooth communication.
- Maintained performance records and helped improve educational outcomes.

Computer Teacher

- Mehr Ali Public School System | 2023 – 2024
- Six years of teaching experience at bright tution center .

CERTIFICATIONS

- Building a Text-Based Bank in Java(Coursera)
- Create Your First Python Program From UST(Coursera)
- Machine Learning Pipelines with Azure ML Studio(Coursera)
